RISKS & MITIGATIONS

SLIDE 10

Chicken-&-Egg Problem

Low supply → no demand. Low demand → pros leave.

✓ Pre-seed 50+ pros before customer launch. Use waitlist to signal demand.

Fake Reviews & Fraud

Inflated ratings destroy trust fast.

✓ Post-service reviews only, linked to booking ID. ML flagging for patterns.

Disintermediation

Pros and customers transact offline to skip commission.

✓ Incentivize in-app: warranty only for in-app bookings, repeat discount.

Low Digital Literacy (Pros)

Older tradespeople won't use app.

✓ Provide WhatsApp-based onboarding bot + field agent assisted setup.

Safety & Liability

Incident during home visit damages brand severely.

✓ Background checks, service guarantee, optional insurance for top pros.
